

THE MONEYPAPER

Investing for Everyone

Take Charge of Your Financial Future

Self-reliant investors want a reliable and unbiased source for investment solutions and financial advice in today's volatile market environment.

This is why *The Moneypaper* was created. Your investment decisions should be focused entirely on what your choices will yield to you and not on how they may suit your broker's objectives.

The Moneypaper publication helps you seek out secure, innovative investment strategies. It encourages traditional and nontraditional investment practices, creating a safer investing guideline for you throughout the investment life cycle.

While many other financial publications bombard with confusing, short-term investment information, *The Moneypaper* streamlines complicated financial subject matter, making it easy to understand and, therefore, safer to implement. Its comprehensive, diverse investment strategies are backed by an impressive track record of almost twenty-five years of successful recommendations.

- ◆ Innovative Low-risk Investment Strategies
- ◆ Invaluable DRIP Investment Recommendations Found In No Other Financial Journal
- ◆ Proven Investment Guidance to Secure Financial Growth
- ◆ Specialized Online Access to Publication & Extended Investment Content

The Moneypaper puts all the essentials at your fingertips. Some highlights include: Outlook by Michael Burke (renowned contrarian and editor of *Investors Intelligence*); stock investing strategies with specific recommendations; SMARTS, our financial collaborators' best ideas; and Summing Up, gems of insight culled more than 30 financial publications.
